2019 St. Cut Permit Application Checklist

Please allow a minimum of 5-7 business days for review.

The following items must be submitted before a St. Cut Permit application can be processed or approved.

- Completed Application Form
- Valid Maintenance Bond or Cash Guarantee as indicated on the application.
- A non-refundable "Permit and Inspection Fee" of \$200 is due at the time of permit application approval by the Town of Carbondale. A \$240 re-inspection will also be due at application approval. The re-inspection fee is refundable if inspections are done in a timely manner with no additional call outs to Town Staff. Payment will be made by the Contractor to the Town Hall cashier prior to work beginning.
- A detailed traffic control plan will be required and should account for pedestrian routes that could be affected by the work and must identify an alternative ADA accessible route. A professionally drawn detailed traffic control plan, prepared by a certified traffic control supervisor may be required.
- A site plan or sketch that illustrates the existing site conditions including trees, ditches, utilities, etc., as well as the proposed work will also be included.
- Installation of an empty shadow conduit may be required on any excavation completely across a road, or on excavations parallel to the road that are 100 feet long, or longer. Minimum size of shadow conduit is 2-inch, but larger sizes may be required in certain situations. Check the approved permit for shadow conduit requirements.
- Standards for Replacement Material:
 - A standard sidewalk must be 4" thick, 4,000 psi, with fiber. A sidewalk crossing across a driveway must be 6" thick, 4,000 psi with fiber and include road base or screened rock on compacted soil.
 - Concrete street panels must be replaced as the original spec.
 - Asphalt replacement thickness should be a minimum of 4" with 2' of compacted road base.
 - Gravel area replacement should be a minimum of 4" of gravel.
 - Grass area replacement should include a minimum of 8" topsoil.
 - If trenching is parallel to a street, asphalt will be replaced on at least half of the trenched street.
 - If trenching is done across a street, the street will be replaced with at least 10' of asphalt.

Questions, please contact Laurie Lindberg, llindberg@carbondalecto.net, 970-510-1325.

WARRANTY:

The undersigned property owner and/or contractor have applied for an excavation permit pursuant to Chapter 11 of the Carbondale Municipal Code. In consideration of the issuance of such a permit, each of the undersigned hereby unconditionally warrants and guarantees all materials, labor and workmanship utilized in the backfilling, compacting, repairing, and resurfacing of the area of the street where pavement is cut and excavation is made, to be free from any defect for a period of two (2) years from the date of such repair and resurfacing. In the event of any such defect occurring within said time period, including subsidence or damage to the pavement, the undersigned shall promptly repair or replace such defective work or materials, at the undersigned's sole expense, in a manner satisfactory to the Town. All work and materials provided under this warranty shall be further warranted for a period of (2) years from the date of acceptance by the Town. In the event that the Town is required to initiate legal action to enforce this warranty, each of the undersigned shall be responsible for payment of the Town's legal fees and costs.
